To Whom It May Concern,

REFERENCE OF COMPANY DEALINGS

Dear Sir,

Our company has been utilising the services of City Lifts for the past 6 years during which time they have provided services for the supply, installation and servicing of lifts over various projects of ours and we have found their company to be professional, competent and time efficient.

City Lifts have been reliable and honest in their project works and dealings and we have recently awarded them a new contract for supply and installation of a Class 9A medical stretcher capability lift for another current project.

Please don't hesitate to contact the undersigned should you require any further information.

Yours sincerely,

Gavin McLeish
