### Reference of Company dealings

Dear Sir,

Please be informed that Smithwick Strata Services has been utilising the services of City Lifts for the past **6** Years. They have been providing their services for installation and servicing of Lifts in Perth over various projects and we highly recommend them to any new client looking to engage their services.

In particular the attention to detail with bespoke design really assists our firm in knowing that we receive the correct product for what our strata complexes need.

Whilst we have always had issues with the lift industry I have always been able to call and speak to Grainge Ryall the owner of the business and talk the issue through and then get the resolved to everyone's benefit.

I would have no issue in recommending their services especially being a locally owned and operated business in WA

Regards

Henry Vurens van Es  
Managing Director
